

My entire family listens to K-LOVE on 92.5 FM in Topeka, KS. We've even turned many other people on to the station. We appreciate having a radio station that is clean, positive and encouraging. I listen to the radio rather than even watch TV as TV shows have even gotten out of line because of the content and the language. I ask that you NOT remove K-LOVE and allow LPFM stations to take the place of this station. K-LOVE is strictly listener supported, our family being one of it's financial supporters-it stays on the air and is supported by hundreds of thousands of listeners because of it's clean content and positive message. That should be a HUGE reason why you, the FCC should not take them off the air because of changes to the LPFM stations. My young teenagers, my husband and myself ask that you please keep K-LOVE on he air and not allow it to be replaced. We appreciate your time and consideration and allowing us to make our comments.
